GOSSIP OF WALL STREET.

it is a big advertisement for the buil mar-ket that Steel preferred has been established above par. It is a good deal for Wall Street to be able to say that all who have bought the stock at any time and at any price since the formation of the United States Steel Corporation have had an opportunity to sell it this week for more than it cost them, after having received dividends on it regularly at the rate of 7 per cent. The stock reached a new high record price yesterday, selling at 103. Many small investors doubtless said to themselves when Steel preferred was selling around 50 that if ever they got a chance to sell it for what it cost them they would be glad to do so, but that kind of stock is not coming on the market at these prices. The inclination rather is to buy more. It has been put to the test and has turned out to be a good investment. Even at these prices it nets a bandsome return on the investment. The hig distribution of the preferred stock in the year following the formation of the corporation was accomplished between 95 and 90, so that on the holdings that are owned outright by the public there is now a very substantial profit. The common stock without dividends is selling higher than it sold during many months of the time that it paid 4 per cent. It is now within a few points, indeed, of the average price at which it was originally distributed.

Brokers affirm that any new outside interest anifested this week in the stock market may be attributed largely to the prominence of the United States Steel stocks. Through these securities a large body of public sentiment is reached, owing to the manner in which they are distributed. Each time that they have been turned aggressively to the bull side of the market general speculative interest has been stimulated. Both the common and preferred shares were heavily traded in yeserday forenoon. In both there was a good ical of profit taking by speculative followers of the advance, and in the afternoon quoations receded somewhat from their highest The advance of the preferred stock on this ccasion has been relatively greater than that of the common. Around 103 there seemed be a good deal of the preferred stock for cale, and traders for that reason sold heavily at 102%, counting upon the stock that was ver the market at 103 to check the advance plied on the level of 38 and reacted under speculative realizing. It is very positively stated, however, that there has been no important distribution of either the common or the preferred by the large bull interests behind this campaign. They confidently predict higher prices before summer. For he preferred stock 110 is modestly predicted. ome of the more enthusiastic predict 125. The common stock, they say, will sell this year somewhere between 45 and 50.

A wit of the Midday Club says that some lead the simple life, some the strenuous life and some the equitable life.

The report from Chicago that pledges had been made to report and pass a gas bill before the adjournment of the Illinois Legislature produced some selling of Peoples Gas. A demonstration was made in the stock last week and it served to disclose a strong market position, but there were many who questioned the expediency of beginning a bull campaign in it before the Illinois Legislature

That extensive borrowing of Union Pacific stock which was so much commented upon a week or ten days ago is going on still, and is more of a mystery to those who are watching it than at any time before. A good deal of borrowed stock was returned last week, possibly 90,000 or 100,000 shares, but the loans were promptly renewed in other places. Estimates of the amount that is now being borrowed vary from 150,000 to 200,000 shares. The demand is openly carried into the loan crowd on the floor of the Stock Exchange, but one peculiar thing about it is that although the borrowers will take the stock in unlimited amounts they will make not the slightest concession from the prevail-ing rate of interest. Some of the most prom-inent houses in the Street are borrow-ing the stock heavily and take all that is offered, but it must be loaned to them at the interest rate. It isn't at all as if they had to have it. The reason, apparently, that a lot of stock was returned last week was that the borrowers were getting interest at the rate of only 81/2 per cent. while the prevailing rate was 4 per cent. The borrowers notified the lenders that they should insist upon having the stock marked up to hereupon decided that they would carry it for themselves and asked that it be returned them. "You go over there in the loan crowd now," said a broker yesterday aftercertain brokers will take all you have without asking you first how much you're good. The demand in that way seems to be unimited, but it is not the urgent demand that would indicate an enormous short interest, for the borrowers will make not the con-cession of one-half of 1 per cent, in interest."

The increase of commission business on this week's advance has been contributed largely by the market's wire following and that highly speculative office trading element whose operations at other times have been ully commented upon. Business of this character is subject to abrupt variations. There has been developed in this market a speculative element of mixed composition professional and semi-professional, that will rade very daringly and heavily on the tape.
'ts capital has been made on the bull side lmost entirely, and its natural speculative clinations, therefore, are bullish. he tide of speculation turned a few weeks ago this element withdrew from the market has been taking hold again this week. Brokers admit that the support from the average outside public is not what it should They report, also, however, that clients are more easily interested in the low priced industrials than in the high priced railroad issues, and that the greater activity recently in the industrial quarter of the market has not been without effect upon outside senti-ment. The distribution of business resterday was unsatisfactory. Houses that were willing to encourage speculative buying for the advance had less cause to complain than those that persisted in holding a conservative position.

The head of a prominent wire house whose position is conservative said yesterday: "This no doubt, the spring rise. We should not not advising anybody to fight it, but to those who would go with it we recommend only the most active stocks and would urge disrimination even in those. If the people who are buying these stocks on the advances should abruptly leave off buying them, their followa might find themselves without a market

Now that the speculation that has been much predicted appears to have started the industrial quarter of the market in do not altogether believe in it and are inined to criticise the character of the manipu-

Although the demonstration made yester-cae in Rock Island common was accompanied The tremendous activity which invariably attends so-called inside manipulation, and nich would be too expensive for a pool of "nail resources to continue, the movement as not of inside origin, according to those est informed in Rock Island matters, and in assertion to this effect was borne out by the manner in which the trading flattened the afternoon. The flagrant character the manipulation exposed it to general iticism. One broker stood near the crowd while the movement was in progress dis-tributing both buying and selling orders to other brokers. A specialist in the stock reitement in 40,000 shares. The total of ransactions exceeded 200,000 shares. The core crowd itself, so far as anybody has een able to learn, has done little or nothing Rock Island since it was established on the level of 35. There have been several ools in the stock since then having no inside connections whatever, but they have sought at various times to create the impres- Majestic.

MR. LAWSON EXPOSED

"Oh. that miss adversaries would all write books!" and the patient Job.

The wiselsm rings as true to-day as when Job wiped his stylus. Take my own case—I have written eleven insistments, or 20,000 words, of "Frenzied Finance." the Crime of Amalgamated. I believe any writer could punch some sort of a peckable hole in a narrative 220,000 words long. I'm sure I could.

"Standard Oil" from the start put their best men on the trail of my story, and climaxed their efforts with a ficurish of trumpets that their imported character thug. Denis Donohoe, would "do me up" in a series of 14 articles in "Public Opinion."

My friends think it foolish to advertise my adversaries' malice, but they are too easy. I fust can't resist the temptation of helping circulate their yarns.

This week's issue of "Public Opinion," with its culminating chapter, is out to-day, and in it is formally presented "Standard Oil"s" and Messrs. Rogers' & Rockefeller's own personal version of the greatest crime of doilars ever perpetrated.

It comes at a pat time, as my next two chapters in "Everybody's" give the first great crime of Amalgamated. Its formation and flotation, in detail, the May instalment—telling how the United Metals Selling Company, the "colored grentleman" of Amalgamated, was created by a hold-up of Lewisonh Bros. while the June instalment describes how Amalgamated was floated from the City Bank and the public plundered to the tune of 86 million doilars by one of the boldest and most glaring fraude ever perpetrated.

I ask my friends to read this issue of "Public Opinion." I dare my ememies to: they'll know why was they're failshed the instalment—if they finish it—and to the masses who feet they cannot afford to exchange good coin for such a publication. I will send free copies of "Public Opinion" if they will mail me their address, provided I can purchase the same of the publishers.

I repeat. "Oh. that mine adversaries would all write send free copies of "Public Opinion" if they will mail me their address, provided I can purchase

THOMAS W. LAWSON. Besten, April 7, 1906.

Reichsmark 300,000,000 (\$72,000,000.) New 31/2 % German Government Loan

The undersigned receive subscriptions up to April 8th, incl., for the above loan at 101.20 and accrued interest.

Price of the old 31/2% loan to-day is 101.80 and interest. Part of the above issue will be used by the German Government to redeem the German Treasury 4s due during 1905.

sion that their operations were of inside origin. Those who have tried to bull Rock Island independently of the Moore party have found that if they would but bid up a little for it a large part of the capital stock would be sold to them. The operations of the Moore crowd have never been dis-tinguished for philanthropy, and one reason, perhaps, that Rock Island has been a laggard in the market for many months is that siders, trying to bull it, have only loaded themselves up with stock which the insiders unwilling to take off their hands at a

The Greene Gold-Silver Company Offers for Sale 100,000 Shares of Treasury Stock at Par, \$10 Per Share

PURSUANT TO ORDER OF THE BOARD OF DIRECTORS, FOR THE PURPOSE OF PROVIDING FUNDS FOR ENLARGING ITS OPERATIONS AND INCREASING ITS REDUCTION CAPACITY, THE GREENE GOLD-SILVER COMPANY OFFERS FOR SALE 100,000 SHARES OF TREASURY STOCK AT PAR, \$10 PER SHARE, PAYMENT TO BE MADE ONE-HALF (\$5.00 PER SHARE) CASH AT THE TIME OF SUBSCRIPTION, \$5.00 PAYABLE JULY 15, 1905. SUBSCRIPTIONS WILL BE RECEIVED AT THE OFFICE OF THE COMPANY, 24 BROAD STREET, CITY OF NEW YORK, UNTIL 12 O'CLOCK NOON, APRIL 15, 1905.

The Company reserves the right to withdraw this offer at any time. In case of over-subscriptions, stock will be allotted in the order

The Greene Gold-Si'ver Company will take over, work and develop mines of gold, silver, copper, tin and lead located under the concession granted to its President, W. C. Greene, by the Mining Department of Mexico, duly approved and ratified by the President and Congress of the Republic December 3, 1904.

THIS CONCESSION IS THE LARGEST AND MOST VALUABLE MINING CONCESSION EVER GRANTED TO ANY INDIVIDUAL OR CORPORATION, GIVING THE SOLE RIGHT TO LOCATE MINERAL OF ANY KIND OVER AN AREA OF 4,000 SQUARE MILES OF WHAT HAS LONG BEEN KNOWN AS THE RICHEST MINERAL SECTION OF MEXICO. THE CONCESSION IS RECOGNIZED AMONG MINING MEN AS BEING OF ALMOST INCALCULABLE VALUE.

IN ADDITION TO THIS CONCESSION THE GREENE GOLD-SILVER COMPANY ALSO OWNS A LARGE NUMBER OF PROVED AND DEVELOPED GOLD, SILVER AND COPPER MINES, AMONG WHICH MAY BE MENTIONED THE MULATOS GOLD MINE, SITUATED NEAR THE LINE OF SONORA, WHICH HAS LONG BEEN NOTED AS ONE OF THE LARGEST QUARTZ GOLD DEPOSITS IN THE WORLD, HAVING PRODUCED MANY MILLIONS OF DOLLARS. AND BEING AS YET SCARCELY TOUCHED.

The 60-ton mill now upon this property will be replaced by a modern plant having a capacity for treating 2,500 tons of ore daily. The new mill will be equipped with the latest and most approved machinery, and will show very large profits immediately upon completion.

The Mulatos mines are developed sufficiently to provide ore for a plant of this capacity for many years.

THE GREENE GOLD-SILVER COMPANY ALSO OWNS THE GUAYNOPITA COPPER MINES, IN THE STATE OF CHIHUAHUA, UPON WHICH A LARGE AMOUNT OF WORK IS BEING DONE, AND AN ENORMOUS AMOUNT OF ORE HAS BEEN DEVELOPED. THE RUINS OF OVER 200 OF THE OLD SMELTERS OF THE ANCIENTS ARE STILL TO BE SEEN ON THIS PROPERTY.

The Cananea and Guaynopita were the two copper mines worked by the Indians before the conquest of Mexico by the Spaniards. The Guaynopita ores carry good values in go d and silver, in addition to high percentages of copper. Specifications for new copper smelters, of a capacity of 500 tons daily, are being prepared for this company.

THE GREENE GOLD-SILVER COMPANY ALSO OWNS THE FAMOUS SANTA JULIANA; BALVANERA, GUADALUPE, RINCON AND RONQUILLO GROUP OF MINES IN JESUS MARIA, CHIHUAHUA. THESE MINES ARE FAMOUS AS HAVING BEEN AMONG THE LARGEST GOLD AND SILVER PRODUCERS IN MEXICO, OVER \$120,000,000 HAVING BEEN EXTRACTED FROM THE SURFACE WORKINGS OF THIS COMPANY, NOTWITH-STANDING THE DISTANCE FROM TRANSPORTATION, CRUDE APPLIANCES AND THE HOSTILITY OF APACHE INDIANS WHO FORMERLY INTESTED THIS SECTION.

A double-track drainage tunnel is now being driven which will unwater the mine 1,500 feet below the lowest working, the Santa Juliana being the only mine of the group that has been worked below the water level.

THE ORE BODIES ARE VERY LARGE, THE ORE AVERAGING, BY MILL RUN, FROM \$40 TO \$50 PER TON IN GOLD AND SILVER VALUES. A MILL OF THE CONCENTRATING CAPACITY OF 1,000 TONS DAILY WILL BE PLACED ON THE PROPERTY, AND THESE MINES WILL AGAIN RANK AS THE LARGEST GOLD-SILVER PROPERTY

In addition to these proved valuable mines, the Greene Go'd-Silver Company owns the Boluda group of go'd mines, the Veta Grande, Square, Compass and Oid Vida, and many other promising properties as yet only partially developed, but showing large bodies of ore. The Company will also buy, sell and work other mines, custom ores, &c., &c.

The Aros and Yaqui Rivers furnish unlimited water, with ample fall for power purposes, enabling electrical power to be utilized at all the Com-

THROUGH ITS SUBSIDIARY COMPANIES CONCESSIONS FOR IMPORTATION OF MATERIAL, FREE OF DUTY, EXEMPTION FROM TAXATION, &C., HAVE BEEN OBTAINED. THE BEST TALENT AVAILABLE WILL BE EMPLOYED IN THE MINING AND ENGINEERING DEPARTMENTS.

AMPLE CAPITAL HAS BEEN PROVIDED SUFFICIENT FOR THE FULL DEVELOPMENT OF ITS VARIOUS MINES. THE DIRECTION AND MANAGEMENT IS COMPOSED OF ACTIVE, PRACTICAL, SUCCESSFUL BUSI-NESS MEN, MANY OF WHOM HAVE HAD LARGE EXPERIENCE IN MINING IN ALL ITS BRANCHES, AND THE PLANS OF THE MANAGEMENT HAVE BEEN LAID IN A BROAD AND COMPREHENSIVE MANNER, WITH THE OBJECT OF MAKING OF THE GREENE GOLD-SILVER COMPANY THE LARGEST AND MOST SUCCESS-FUL MINING CORPORATION ON THE CONTINENT.

The capitalization is low, as compared with the extent and value of the property.

The building of the Rio Grande, Sierra Madre and Pacific Railroad, which has in operation 160 miles from El Paso to Terrazas, and which is now under construction by Mr. Greene and his associates from Terrazas to Deidrick, 135 miles further, will afford cheap transportation to the mines of the Company. The inaccessibility of these properties and the distance from the railroad have been the greatest obstacles to the development of these

500,000 shares, with the par va'ue of \$5,000 000, have been placed in the treasury for the development of the property.

50,000 SHARES OF TREASURY STOCK HAVE ALREADY BEEN PURCHASED BY THE DIRECTORS, AT PAR. REALIZING \$500,000 IN CASH, WHICH, WITH THE PROCEEDS OF THE ADDITIONAL 100,000 SHARES NOW OF-FERED TO THE PUBLIC, WILL PLACE IN THE TREASURY \$1,500,000, AVAILABLE AS NEEDED FOR COMPANY PURPOSES, TOGETHER WITH \$3,500,000 PAR VALUE OF TREASURY STOCK WHICH CAN BE SOLD IN THE FUTURE, IF NECESSARY, AT PRICES MUCH ABOVE PAR.

Prospectus, reports, maps, subscription blanks, etc., will be mailed upon application.

MAKE ALL CHECKS PAYABLE TO THE ORDER OF E. J. GATES, TREASURER, OR W. C. GREENE, PRESI-DENT, OF THE GREENE GOLD-SILVER COMPANY, 24 BROAD STREET, NEW YORK CITY.

PROPOSALS.
PROPOSALS FOR STATIONERY and meclianeous Supplies, war Department, Washinton, March 22, 1965.—Sealed proposals, in dureate, will be received here until 2 P. M., MAY 1906, and then opened, for furnishing stations and miscellaneous supplies (brooms, brush soaps, towels, etc.) for Var Department Bures and Offices during year ending June 30, 1906. formation furnished on application.
